MORRIS
JOINERY

Our philosophy

We genuinely love working with wood.

We have our own special recipe for creating outstanding quality, bespoke joinery. The perfect blend of traditional methods combined with modern technology.

Our highly skilled team of craftsmen, mixing experience and youth, have learnt their trade using time honoured methods whilst embracing contemporary thinking and technology. Together, we create the breadth of joinery on which we pride ourselves.

We take time to listen to customers and work within realistic time frames and budgets. Most of our business is through personal recommendation and returning customers.

That's the way we like it.

Attention to detail.

Quality of Service.

Excellent Workmanship.

The Morris Joinery hallmark.

Purpose made

Our flexibility and diversity enables us to embrace the widest internal or external commission from orangeries and bridges to porticos and pillars.

We are happy to work from architects' drawings, customer sketches, photographs or even just an idea in your head. We manufacture to your requirements, commercial and domestic, offering a personalised and professional made-to-measure service for supply only, or supply and fit.

Windows and doors

We are firm believers in maintaining and protecting the aesthetic features of buildings, whether it be in the workplace, for an historic building or for your home.

Our craftsmen are expert in producing joinery sympathetic to its surroundings.

Liaising with local authority conservation departments when necessary, replacement windows and doors can be replicated to match the original, including casement and sliding sash windows and panel doors.

Traditional designs can be complemented with the latest thermal efficiency incorporating double glazing and sound and draught seals.

Staircases and more

From traditional to contemporary, from exotic woods to classic English oak, we can transform your vision into reality. Careful incorporation of features ranging from stainless steel balustrading and precision cut treads to curved wooden banisters - all are part of our specialist armoury when creating staircases of distinction. We know a beautifully constructed staircase can transform and add value with lovingly handcrafted joinery every step of the way.

And when it comes to creating a bespoke piece of joinery, nothing is too small or large for us to enjoy creating. From handmade benches and internal fitting for your home, to commercial counters and screens and traditional panelling.

“ On personal recommendation I approached Morris Joinery to manufacture and install replacement windows and doors for our home. From the initial design right through to fitting, the whole team were professional and courteous. I was particularly impressed with their attention to detail and desire to complete the work to my total satisfaction. So much so, we asked them to make more windows and doors the following year. ”

Janet Woodhall, Shropshire

“ Morris joinery provided us with first class service and a superb product. I could not recommend them more highly. ”

Caroline Kempsey, Staffordshire
